

Please do not change priority of the FM translator service. We listen to K-Love radio in Tillamook and another station in Portland. It is family oriented and wholesome music. I am currently going to Portland OR daily Monday through Friday to receive radiation treatments for breast cancer. I am on the road 4 hours a day and trying to hold down my job as a manager of 3 RD Affordable Housing Complexes serving 89 households. K-Love is uplifting talk and music as well as a news source. It's a safe and calming radio communication source that helps me stay focused and reduce the stress. In Tillamook I also listen to K-Love between properties with the same results. Many people in my community to K-Love for the same reasons. I first heard it in the Hardware Store. They played it for their customers from all different religious backgrounds. We are people that appreciate wholesome radio. Please do not allow anything to interfere with K-Love's FM transmission in our area. I am a supporter of K-Love.
